## PROFESSIONAL SUMMARY

Computer Engineer (B.Sc. 2025) with hands-on experience across full-stack web (Node.js, React, PostgreSQL) and mobile development (Flutter, React Native). Delivered three government-sector mobile applications and a TÜBİTAK-supported AI project; currently a Full Stack Developer at Poetas. Selected member of the Google-supported AI & Technology Academy; M.Sc. researcher in Vision-Language Models.

## PROFESSIONAL EXPERIENCE

### Poetas — Full Stack & Mobile Developer

Sep 2025 – Present

Ankara, Turkey

- Develop and maintain high-performance backend services using Node.js and Express, backed by PostgreSQL.
- Build responsive web interfaces with React and extend the product to mobile platforms with React Native.
- Containerize services with Docker and contribute to CI/CD pipelines (GitHub Actions, GitLab CI) for fast, reliable deployments.
- Manage relational data models and RESTful API integrations to extend product functionality.
- Apply clean code principles and Test-Driven Development (TDD) throughout the development lifecycle.

### BiliciSoft — Jr. Mobile Developer

Jul 2024 – May 2025

Ankara, Turkey

- Developed three mobile applications for government agencies using Flutter and Dart (Municipal Police, Agriculture, and Archive apps).
- Ensured code quality and maintainability with MVVM architecture and Riverpod state management.
- Integrated RESTful APIs for dynamic data exchange and designed user-friendly interfaces applying UI/UX principles.
- Contributed within an agile team across the full project lifecycle.

### Kodland — Python Instructor (Part-time)

Oct 2022 – Jun 2025

Remote

- Taught Python programming from beginner to intermediate level to 30+ students in one-on-one and group formats.
- Designed custom teaching materials that simplified complex programming concepts and accelerated learning.

## PROJECTS

### HealthFintel — Startup MVP

Jun 2025 – Aug 2025

- Built the cross-platform MVP of a mobile app integrating health and financial data using Flutter; defined key features from user needs and delivered the UI/UX demo.

### Academic Content Accessibility — TÜBİTAK 2209-Supported Graduation Project

Sep 2024

- AI-powered mobile application that summarizes lecture and meeting recordings. Flutter, Python (AI models).

## TECHNICAL SKILLS

**Languages & Frameworks:** JavaScript, Node.js, Express.js, React, React Native, Flutter, Dart, Python

**Data & Cloud:** PostgreSQL, SQL, Redis, Supabase, Firebase, REST APIs

**Tools & Methods:** Git, Docker, GitHub Actions, GitLab CI/CD, TDD, Agile/Scrum, Figma, issue-tracking & project-management tools

## EDUCATION

### Mehmet Akif Ersoy University — M.Sc., Computer Engineering

Sep 2025 – Present

*Thesis research: Vision-Language Models (VLM) and fine-grained image classification*

### Mehmet Akif Ersoy University — B.Sc., Computer Engineering

Sep 2021 – Jun 2025

GPA: 3.06 / 4.00

## CERTIFICATES & PROGRAMS

- AI & Technology Academy (Google-supported) — selected member, ongoing.
- C# Software Certificate of Achievement — Mehmet Akif Ersoy University, 2022.
- Python Software Certificate of Achievement — Mehmet Akif Ersoy University, 2022.

## LANGUAGES

Turkish (Native) · English (B2 – Upper-Intermediate) · German (A1 – Beginner)
